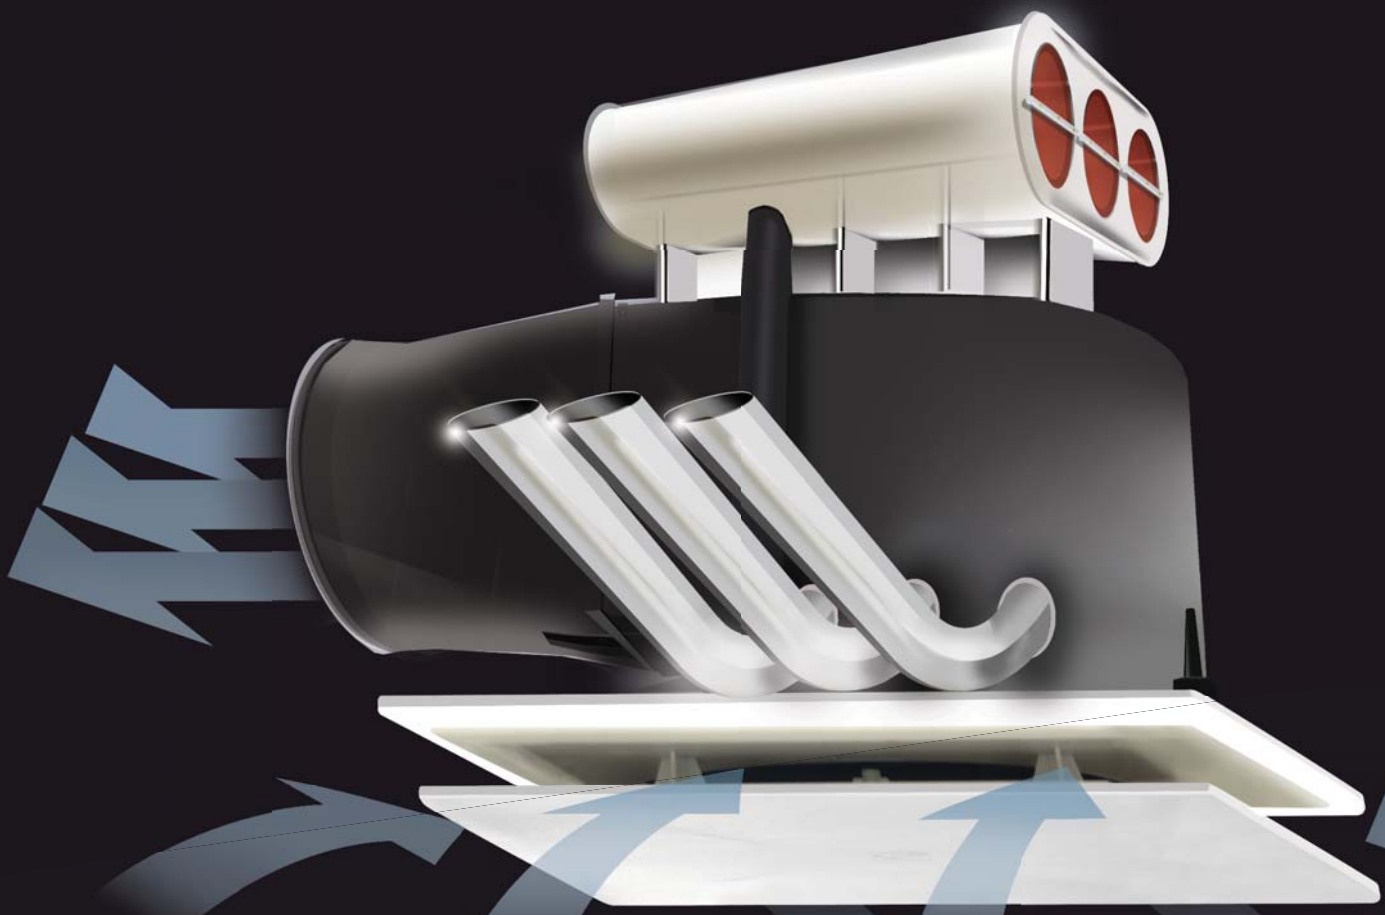
The Ultimate

Header Box Exhaust Fan



Ultimate Performance

Super Quiet Operation

The **Ultimate** header box exhaust fan is the quietest and most powerful in its class. Its aerodynamic and fully optimised design minimises resistance and produces strong, efficient air flow performance.

FANTECH

Intelligent Ventilation

The quietest and most powerful in its class

The Ultimate ceiling mounted header box fan features a fully optimised inlet cone and centrifugal impeller that maximises air pressure and ensures rooms are quickly cleared of steam and unpleasant odours. It includes a unique swing clip and removable spigot that makes it very easy to install into a standard 10” round fan cut out.

Suitable for residential and light commercial applications

The Ultimate header box fan is suitable for residential and light commercial buildings in applications such as toilets, bathrooms, laundries, kitchens and ensuites. Its low profile, compact design and side exhaust outlet makes it suitable for mounting between floors and applications with low ceiling heights such as cathedral ceilings.

The Ultimate’s housing is made from quality injected moulded, fire retardant, ABS plastic giving it a robust construction and reliable operation.

Models with an adjustable 3 to 15 minute run-on timer are also available for both the square and round grille versions. These include a plug and lead to suit the HPM 4 pin socket.

Ultimate with Round grille (ULT29-150RDW..)

FANTECH
Intelligent Ventilation

Features and benefits

- Advanced impeller and housing design provides powerful air flow and minimises noise
- High strength swing clips make installation easy
- Low resistance non-return backdraft damper maximises air flow performance
- Easy to remove diffuser makes cleaning simple
- Can be retrofitted into a standard 10” round fan cut out
- Fitted plug and lead simplifies installation
- Available with a modern square or round diffuser
- Square diffuser can be easily rotated to align with walls
- Available with a 3 to 15 minute adjustable run-on timer
- Automatic reset thermal protection is fitted as standard

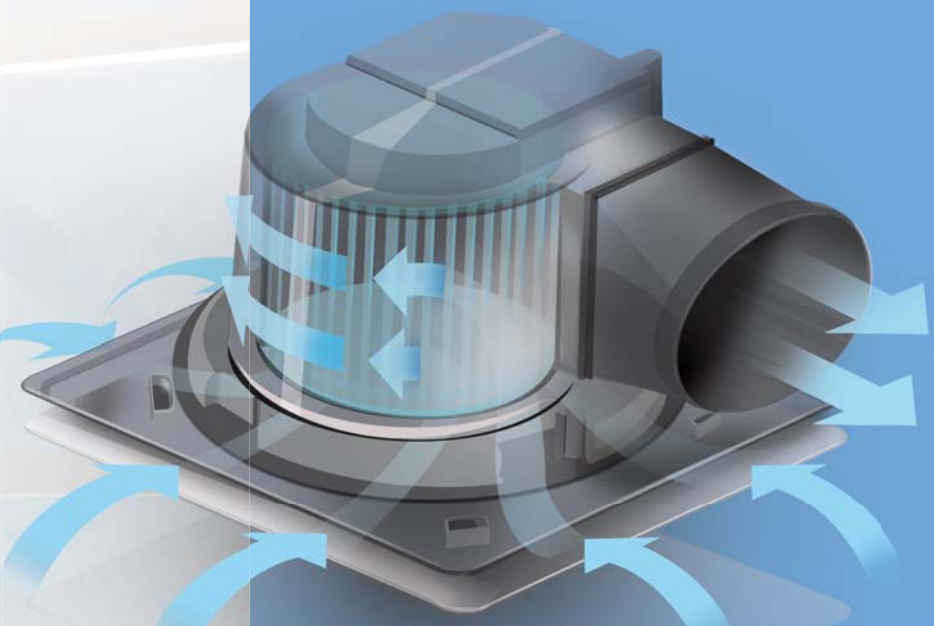
Ultimate with Square grille (ULT29-150SDW..)

Easy to install

Long clip-in spigot makes installation and duct connection easier.

Rotate swing clips to hold fan body in place.

Tighten screws so clips clamp onto ceiling board.



Optimised inlet cone and impeller blade design maximises air pressure.
